To see the feedback from a test, follow these instructions.

1. Click on "My Grades" to display grades and feedback on tests.

2. Once a test is graded, the score will appear in your My Grades section. To see more detailed feedback, click on the name of the test.

3. Clicking on the grade will take you directly to the test feedback.

4. The information displayed on this screen varies depending on what feedback the instructor has chosen. For example:
   a. Only your score may be visible.
   b. Only the questions and whether each one was correct or incorrect may be visible.
c. The entire question may be displayed, including the correct answer.

5. These settings can be set to change over time. For example, only the final score may be visible until all students have taken the test, then the correct and incorrect answers will become visible.
